DETAILED ACTION

Election/Restrictions

Applicant has argued in the restriction requirement that it is too restrictive and that there is no burden placed on the examiner on searching all of the groups and encompassed inventions therein. It is noted that the invention encompasses many different compounds which are too numerous for the examiner to search all of them. The compounds vary distinctly in their structures and functions. Thus, an individual search is required of each individual component. Therefore, as part of the election on the record applicant's election is an election of the compound to be examined and the search and examination on the merits will be restricted to that specific compound since searching any and all compounds encompassed by "lysosomal modulating compound" are simply too numerous for the examiner to search which does create a serious burden upon the examiner. This requirement is an election of a single invention, since each compound is assumed to be a patentably distinct invention, in the absence of evidence to the contrary.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 9-14 are rejected under 35 U.S.C. 102(a or e) as being anticipated by WO 00/56335 or Seyfried et al.

Applicant argues that the references do not teach the claimed invention but all the claims require is that the claimed compound is administered to treat a neurodegeneration in a subject. Both references teach that the claimed compound is administered to such a subject. It is inherent that if the same compound is administered to the same patient in the same way that the inherent results of such a compound being administered to the patient will occur. Thus, the effects that applicant argues will not occur, must in fact occur.

Claim Rejections - 35 USC § 103

Claims 9-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 00/56335 or Seyfried et al..

The same arguments as above are offered by applicant, thus the response is the same.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
